The cost of living has increased more than the wages of the workman under the enormous tariff now in existence.

The most inconsistent and dangerous policy ever thrust upon this country is that used as to the Philippine Islands.

The Interstate Commerce Commission has issued a report showing the number of casualties to persons on railroads in the United States for the fiscal year ending June 30, 1904, to be 55,130. Of this number 3,787 were killed. The total number of collisions and derailments was 11,291.

Henry G. Davis ended his whirlwind campaign through West Virginia Wednesday night at Wayne. During the trip he traveled 1,300 miles and spoke in seventy-eight cities and towns. Mr. Davis expresses the belief that the State will go Democratic and says such is the opinion of the party leaders.

If there are any Democrats in Lawrence county who do not appreciate the importance of this campaign, it is time they were awakening to the situation. Vital issues are at stake and the national races are the only chances you have to vote on these things. Go to the polls and see that your Democratic neighbors go also.

We have already spent \$637,000,000 in the Philippines, or nearly \$90 each for every man, woman and child on the islands. Before Roosevelt gets through experimenting they will cost us twice that amount. Would it not be cheaper, not to say more humane, to give the little brown creatures their freedom and let them hustle for themselves?

There has never been a presidential campaign in which there was more absence of "scare." The Republican politicians are not able to work up the slightest apprehension over a change of administration. There could be no better evidence of Mr. Parker's standing than this. He is recognized as able, conservative, desirable timber for the Presidency. It is a rare case of this high office seeking the man.

The Ashland Daily Independent and other esteemed exchanges will please call T. W. Morrison the alleged swindler, a "Big Sandy" item. He never saw Big Sandy until a few months ago, when the Standard Oil Company sent him here as a

Ayer's

Do you like your thin, rough, short hair? Of course you don't. Do you like thick, heavy, smooth hair? Of course you do. Then why not be pleased? Ayer's Hair Vigor makes beautiful heads of hair, that's the whole story. Sold for 60 years.

driller. Though not as wicked as some other sections of country, we have sins and sinners enough of our own. The Lord knows, without adopting all the foreigners that come along doing evil. Call this renegade a Pennsylvanian, for instance.

Judge Parker's career has been thus fittingly described by Judge Vasm, one of his associates on the Appellate Bench: "His entire judicial career shows power, modesty, learning, strength of character, independence, conservatism, sobriety of view, and every step of his judicial life, has reflected honor and dignity upon the position he fills.

It is not easy to get excited over the tariff, but when the head of every family in Kentucky realizes that he digs down his pocket every year for \$24, which goes to the protected trusts, he may sit up and take a little notice. If a burglar were to relieve him of one-tenth of the sum he would set up a howl for the police that could be heard in the remotest regions of the frozen North, even overtaking Karapatin, the speed marvel. But say "tariff" to him and he will go to sleep.

Pierpont Morgan is strong for Mr. Roosevelt. He says he believes the country will go to the devil in a hand basket if the Rough Rider is not elected. Under the sacred protective tariff steel rails sell in this country for \$28 a ton, while the same rails sell in foreign markets for \$18 to \$22 a ton. Morgan was the organizer of the steel trust and this discrimination of the tariff has made him millions. Naturally he is for Roosevelt and for the perpetuity of a policy that will continue to enrich him.

What Bryan Says.

"On the labor question I want you laboring men to know that Judge Parker, in his speech of acceptance has pointed to and condemned the action of Gov. Peabody in Colorado in deporting men without indictment, without trial and without evidence. Why does not Theodore Roosevelt discuss the Colorado situation? Why doesn't he denounce these methods there of governing laboring men with out a constitution? Do you want to know why? Because in the Philippine Islands he is governing 8,000,000 Filipinos by the same laws Gov. Peabody is applying to laboring men. That is the reason. I want to ask you what laboring man can criticize Peabody in Colorado if he votes for Roosevelt, who is committed to the same thing 7,000 miles away? What right has a laboring man in this country to demand a constitution for himself if he will take it away from a Filipino? The Filipino needs the constitution more than I do. I can vote for congressmen, senators, and for president, and if one of these men does not treat me well I can go out and defeat him if he comes up for reelection. I have that power of voting, and it is a power that gives me protection to some extent, even though we had no constitution. But the Filipino has no congressman, he has no senator, he has no vote in the election of the president, and no matter what is done he has no redress. And yet here are laboring men who four years ago voted for imperialism and voted to fasten upon 8,000,000 of people, helpless Filipinos, the same despotic doctrine that you now complain of when in Colorado it is enforced against the laboring man. A blow against constitutional liberty anywhere is a blow against constitutional liberty everywhere."
